The Bulldog

VIBCO's Model DC-500 Concrete Pump vibrator replaces the Bosch Model 18961 *at less than 1/2 the cost* with the same mounting hole dimension. The DC-500 is rubber o-ring sealed for power washdown. Designed with completely smooth surface eliminating most of the concrete buildup. Double armored housing protects motor parts and withstands rapping with cleaning tools. Cable inlet on bottom of unit eliminates cable hang-up or cable breakage. Cable is also protected by a plastic hose. DC-500 can be supplied both in 12 or 24 volt DC. Mounting hole dimensions, 5" (127mm) x 3-3/4" (95.3mm), RPM max 4000 and 16 amps. Weight is 12 lbs (5.45kg).

DC-500 is used on the following truck mounted pumps: Thompson-Putzmeister; Schwing America; Reich America; Morgan Mfg.; Teka Concrete Pumps
